

QUALITY POLICY

As a leading provider of safe, cost-effective, and reliable services to energy operations and logistics worldwide, SES Energy's long-term success depends on our ability to continually deliver products and services of high quality in a simple and cost-efficient way without any harm to people.

To this end, our Vision is to be "The easiest company to work with" based on our five core values: Integrity, Endeavour, Continuity, Humility, and Excellence, supported by a clear strategy and aligned business objectives.

Policy Commitments:

- Provide safe, cost-effective, and reliable services to energy operations and logistics, on a sustainable basis, enabling our customers to succeed in the ever-changing business environment.
- Ensure operational efficiency and quality delivery by adherence to best practice provided within Operational Excellence processes put into practice by local procedures, work instructions, and single point lessons.
- Enhance customer satisfaction by delivering quality products and services tailored to their needs.
- Ensure all employees receive appropriate training.
- Continually measure results, and improve our management system to eliminate hazards, control risk, enhance performance and satisfy all legal obligations, applicable industry standards, and customer requirements.
- Ensure that third parties, partners and agents manage SES Energy products and services to the standard demanded.
